Voter Data Information

Notice Regarding Checks Provided for Payment

“When you provide a check as payment to the Secretary of State, you authorize the State of New Mexico to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction.”

State of New Mexico Voter Data Information Request

As per 1.10.35 NMAC Rule (Voter Records System) applies to the uniform operation and maintenance of the statewide computerized voter registration system in each of the thirty-three (33) counties of New Mexico and the office of the secretary of state. Sections 1.10.3510B states that the secretary of state shall develop a uniform fee schedule for data recording media, voter data, voter lists, precinct lists, printed labels and early and absentee daily voting reports.

SERVIS (State Elections Registration and Voting Integrity System) data may be purchased for government and campaign purposes only. This data includes each voter’s name, address, telephone # (with voter’s consent), year of birth, party affiliation, and registration data such as county, precinct, and district information. New System features include real-time updates and voter history. Anyone who purchases SERVIS data must sign an [Authorization Form \(PDF Format\)](#) swearing the data will not be made available for or used for commercial or unlawful purposes.

For more information, contact the Bureau of Elections, Office of the Secretary of State at: (505) 827-3600 or (800) 477-3632 or by [E-mail](#).

Fees for Data:

The fees for the various media on which SERVIS data can be requested are as follows:

Type of Service or Document	Cost	Other
Electronic Format	\$4.00 per 1,000 records with voting history	Unsorted
Electronic Format	\$3.00 per 1,000 records without voting history	Unsorted
Printed List	\$5.00 per 1,000 records	As Requested
Labels	\$20.00 per 1000 records	As Requested

There will be a \$15.00 Setup Fee on all voter data information requests.

File types available on SERVIS:

- Comma-separated value
- Excel

- Text(tab-separated columns)

There is no price reduction for buying voter data on more than one media. If for example, the same AVRS data is requested on both diskette and a printed list, the requester must pay full price for both media types.

Some of the voters in our AVRS database are marked inactive. These are people who have not voted in several election cycles or who, according to the National Change of Address database, have moved and have not responded to letters from the county clerks. You may include these voters in your request if you wish. Our experience is that people who are doing direct mailings often prefer not to include these voters; however, those who want to validate petition signatures definitely want their lists to include inactive voters.

It is possible to have names and addresses of voters printed in label format on plain paper. The advantage of this option is that you can copy the labels onto regular label stock each time you want to do a mailing.

Householding means that if there is more than one voter at the same address with the same last name, only a label for the first voter will be generated.

If you are interested in requesting Voter Data Information, contact the Bureau of Elections at 505-827-3600 or 1-800-477-3632 or by [Email](#).
